CSR Report

About This Report

Light is more than just a company; it strives to be a beacon of hope, illuminating the path towards a brighter future for communities across India. This report details the impactful Corporate Social Responsibility (CSR) initiatives undertaken by the company in FY 2023-24, reaching over 15,000 individuals. Light focuses on three core areas – Education, Health and Women Empowerment – driven by a vision of creating a society where everyone has access to basic necessities, equal opportunities and a dignified life.

Light has a firm dedication to CSR initiatives, prioritizing sustainable development through impactful programs within key focus areas. These areas encompass ensuring children have the tools and knowledge to succeed, guaranteeing access to preventative and curative healthcare services for all, promoting healthy hygiene practices and improving sanitation, empowering women to achieve their full potential and contribute meaningfully to society and environmental sustainability. The company's community engagement programs have blossomed since its inception, positively impacting over 25,000 individuals in just three years.

OUR PROGRAMS

The company categorizes its CSR projects under three programs:

1. Ek Hi Iccha, Sabko Shiksha (Education): Light recognizes education as the foundation of a prosperous society. Through its comprehensive program, Ek Hi Iccha, Sabko Shiksha, the company addresses the diverse needs of both rural and urban school children. The program tackles these needs through a combination of educational projects. By addressing these diverse needs, the program aims to create a future where all children have the opportunity to succeed through quality education. The program has three projects:

- **Badhte Kadam:** The project ensures equal opportunity for all children by providing much-needed stationery kits and addressing the issue of limited resources.
- **Anmol Angan:** The project empowers adolescent girls by tackling often-ignored topics of menstruation and hygiene through interactive sessions, dispelling cultural taboos and misinformation. It equips girls with the knowledge and tools they need.
- **Safe Harbour:** The project focuses on personal safety education for children aged 5-10 years. Through interactive workshops, songs, role-plays and games, Safe Harbour equips children to identify safe and unsafe touch, creating a safe space for learning open communication.

2. Nirog (Health): The company recognizes that good health is fundamental for individual and community well-being. The program focuses on improving access to healthcare services by organizing eye checkup and health checkup camps in remote villages, bringing much-needed medical care directly to the doorsteps of those who need it most.

3. Aapka Bhagya, Aapke Haath (Women Empowerment): The company recognizes the crucial role women play in building a stronger society. The program aims to empower Indian women to achieve their full potential through various projects. Through Aapka Bhagya, Aapke Haath, Light is committed to creating a future where women are empowered to achieve their dreams and contribute meaningfully to society.

- **Swavalamban:** The project equips women with the resources to start their own businesses, fostering financial independence for themselves and their families.
- **Smart Dhan:** The project equips women with the knowledge and skills to manage their finances effectively, plan for the future and invest strategically, creating a ripple effect that empowers their families and communities as well.

FUTURE FOCUS

Light is steadfastly committed to continuous improvement and expansion of its impactful CSR initiatives. The report offers a glimpse into the company's future focus areas:

- **Expanding Outreach:** Light aspires to significantly increase its reach and positive impact on community development. This will involve geographically extending our current CSR programs to encompass all nine operational states.
- **Deepening Partnerships:** To maximize impact and reach a wider range of beneficiaries across India, Light will actively seek to strengthen and expand partnerships with NGOs, government agencies and other stakeholders.
- **Enhancing Measurement and Evaluation:** Recognizing the importance of effectiveness, Light will implement robust measurement and evaluation frameworks for its programs. This will facilitate continuous monitoring, strategic adaptation and maximizing positive social impact.
- **Innovation and Scalability:** Light remains dedicated to exploring innovative approaches and solutions to address social challenges. The company will strive to develop scalable models that can be replicated across various communities, creating a wider and more lasting impact.

This future focus ensures Light's CSR programs continue to be impactful and contribute meaningfully to a better tomorrow.

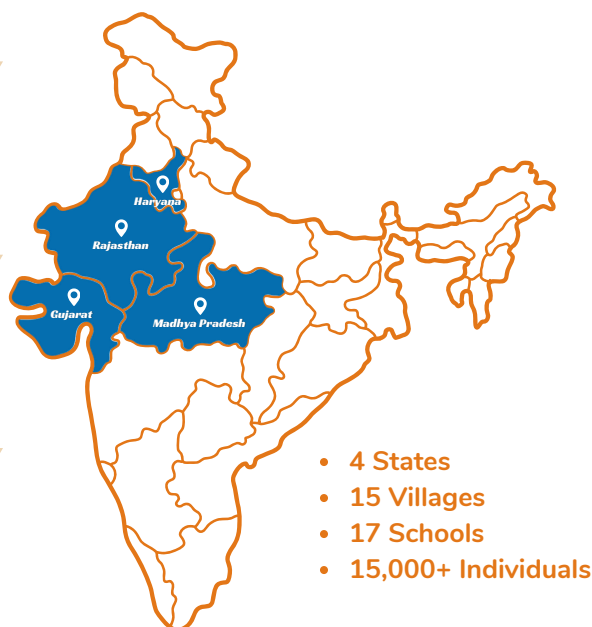

Our Outreach

Amid changing expectations and marketplace shifts, the company is maintaining its focus on advancing action together, achieving collective progress and contributing to sustainability and community development. This helps the company achieve its CSR goals while benefiting individuals, the planet and local communities.

During the 2023-24 financial year, the community engagement initiatives entered their third year, focusing on issues like education, health, WASH (Water, Sanitation, and Hygiene) and women's empowerment. to address local needs. These initiatives have left a lasting positive impact on the communities surrounding the operations and have expanded quickly in the states of Gujarat, Rajasthan, Haryana, Madhya Pradesh and beyond.

The company's reach extends to the remotest corners of rural India addressing acute developmental needs. Thus, the commitment goes beyond numbers, aiming for enduring change and community empowerment.

Building A Better Future

Ek Hi Iccha, Sabko Shiksha

Educating children is paramount for India's social progress. Despite financial limitations and infrastructural gaps, initiatives like free schooling and community programs bridge this divide. Scholarships and vocational training offered through private and public partnerships further empower children to break the cycle of poverty. Light, emphasizing holistic development and inclusivity, aims to nurture future leaders and innovators. These efforts contribute to unlocking India's potential while fostering equality and opportunity for all.

Ek Hi Iccha, Sabko Shiksha, launched in 2021-22, is a cornerstone program of Light's CSR initiatives. Designed to provide educational assistance and support to children in rural and urban India, the program prioritizes ensuring every child has access to and completes formal education.

This year, the program comprised three projects: Badhte Kadam (stationery distribution), Anmol Angan (mensuration awareness program for teenage girls) and Safe Harbour (safe and unsafe touch awareness program for children between age group of 5 years to 10 years). Implemented across 13 schools and four Anganwadis across Guna (Madhya Pradesh), Alwar (Rajasthan), Dahod (Gujarat) and Kaithal (Haryana), these projects empower children with the skills and knowledge needed for fulfilling lives and positive societal contributions. Overall, the program represents a significant step towards achieving universal education in India and creating a brighter future for generations to come.

Project: Badhte Kadam

OBJECTIVE: Many children in rural India face significant barriers to a quality education, often due to limited resources. One major obstacle is the lack of basic school supplies, which can hinder a child's ability to participate actively in their education.

FOCUS: Our project recognizes that seemingly simple items like notebooks and pens play a critical role in supporting a child's learning journey. Without these essential tools, children struggle to practice their skills, complete assignments and fully engage in classroom activities. This project specifically targets rural government schools, where students often come from lower socio-economic backgrounds and may lack access to these resources at home.

PROJECT DETAILS: The company provided age-appropriate and high-quality stationery kits for each child, including essential items like notebooks, pens, pencils, sharpeners, erasers and drawing books.

IMPLEMENTATION & IMPACT: In the 2023-24 academic year, the program reached a total of 5,695 students across 13 rural government schools and 4 Anganwadis (early childhood care centers). The impact of this initiative has been truly remarkable, exceeding our expectations. The company observed increased classroom participation, improved homework completion rates and a greater sense of enthusiasm for learning among the students.

Project: Anmol Angan

In India, raising awareness about menstrual health is crucial for the overall empowerment and well-being of women. Cultural taboos and societal stigmas often hinder open discussions on reproductive health and rights. However, through educational campaigns, workshops and accessible healthcare services, rapid strides are being made to break barriers.

OBJECTIVE: Project Anmol Angan under Ek Hi Iccha, Sabko Shiksha focuses on WASH and works towards that aim. In rural India, the threshold of womanhood can be shrouded in secrecy and shame, leaving many young girls unprepared and vulnerable. Menstruation, a natural biological process, is often wrapped in layers of misinformation and cultural taboos. This lack of knowledge and open communication can lead to confusion, anxiety and even harmful health practices.

FOCUS: Anmol Angan empowers adolescent girls by equipping them with the knowledge, confidence and life skills they need to navigate this critical phase. The program recognizes that adolescence is a whirlwind of physical and emotional changes. Girls in rural communities often have limited access to accurate information and open communication, leaving them grappling with unanswered questions and anxieties about the following issues:

- Menstruation: Myths and misconceptions creating confusion and shame around a natural biological process.
- Evolving bodies: Understanding and accepting physical changes is crucial for building self-esteem and confidence.

PROJECT DETAILS: The initiative recognizes these needs and through awareness sessions, provides a safe and supportive space for girls to understand and deal with the various issues mentioned below.

- Experienced female instructors from non-profit Ahmedabad Women's Action Group (AWAG) facilitated interactive sessions, addressing myths and misconceptions surrounding menstruation, reproductive health and personal hygiene in a clear and age-appropriate manner.
- Open discussions and activities created a safe space for girls to express their concerns, ask questions and develop a healthy understanding of their bodies and choices.
- The project emphasizes the importance of adopting hygienic practices during menstruation to prevent infections and maintain well-being. Girls learnt about proper sanitation methods and menstrual hygiene products.

IMPLEMENTATION & IMPACT:

- Community Change: As girls become ambassadors of positive practices and informed advocates for themselves, they contribute to a shift in community attitudes towards menstruation. By openly discussing their experiences they break the cycle of silence.
- Healthier Families: The project emphasized on hygiene and well-being empowering girls to make informed choices about their health, potentially impacting future generations by promoting healthy practices within their families.
- Breaking the Cycle of Poverty: Education and empowerment improve girls' life opportunities. By staying healthy and attending school, they are better equipped to pursue their education, find employment and contribute to their communities, breaking the cycle of poverty.

Project: Safe Harbour

Despite growing awareness, the prevalence of child sexual abuse issues underscores the urgency for comprehensive solutions. As Light navigates through society, understanding the complexities of this issue becomes paramount for formulating effective strategies for prevention and intervention.

OBJECTIVE: India's children face a harrowing reality, one marred by the chilling statistic of a sexual abuse incident every 15 minutes. With 85% of perpetrators known to the victim and only 25% of the victims finding the courage to speak up, the need for proactive measures becomes stark. Light's CSR project Safe Harbour rises to this challenge, steering the ship towards a safer future through awareness sessions.

FOCUS: The initiative aims to protect children from exploitation and provide a safe environment for their physical and emotional well-being. Through education, awareness campaigns and community engagement, the company strives to empower children with knowledge and resources to recognize and report abuse. Thus, the initiative seeks to create a society where every child is safe, respected and able to thrive.

PROGRAM, IMPLEMENTATION & IMPACTS: The project's unique features are listed below.

- **Sailing into Rural Schools:** These interactive awareness sessions transform into havens of knowledge and empowerment, reaching children aged 5-10 years, a vulnerable yet crucial phase in their journey towards independence. Conducted in the children's native language, these sessions bridge communication gaps, ensuring every child is equipped with the necessary understanding.
- **Interactive Anchors:** Engagement is the lifeblood of "Safe Harbour." The awareness sessions are brimming with activities that make learning fun and impactful. Children sing songs, participate in role-plays and engage in games, all carefully designed to solidify the concepts of safe and unsafe touch. This interactive approach fosters understanding, confidence and critical thinking skills.
- **Visual Beacons:** Visual aids play a vital role in reinforcing the message. Captivating films and colourful posters capture the children's attention, while illustrated booklets provide a tangible resource for continued learning beyond the session. These visual anchors create a lasting impression, ensuring the message resonates long after the session concludes.
- **Planting Seeds of Resilience:** The knowledge imparted in these workshops goes beyond mere awareness. It empowers children to become active participants in their safety. They learn to identify safe and unsafe touch, understand their right to say 'no' and gain the confidence to seek help whenever needed. This ripple effect of empowerment extends beyond the individual, creating a wave of awareness within their communities, challenging harmful norms and fostering a culture of protection.
- **A Brighter Horizon:** The project envisions a future where India's rural landscapes transform into safe havens for children, where fear is replaced by empowerment and the joy of childhood blossoms freely. By nurturing young minds with the knowledge and tools they need to navigate their world safely, the project paves the way for a brighter tomorrow, where every child can thrive, away from the shadow of abuse hovering over them.

EK HI ICCHA, SABKO SHIKSHA

The program was implemented in four districts across four Indian states:

- Dahod district, Gujarat
- Alwar district, Rajasthan
- Guna district, Madhya Pradesh
- Kaithal district, Haryana

Badhte Kadam

In rural areas, most people rely heavily on their physical well-being to earn a living by performing manual agricultural tasks despite limited healthcare resources. A healthy populace enables communities to thrive economically, ensuring continuity in farming practices and contributing to food security.

Moreover, good health reduces healthcare expenses, allowing families to allocate resources towards education and other essential needs, uplifting rural economies sustainably. Therefore, adequate healthcare services are paramount and Nirog is Light's attempt to address this concern.

OBJECTIVE: Nirog is a health program that focuses on improving the health and well-being of people in India's rural and urban areas. The program's primary goal is to provide access to healthcare services and support to individuals with inadequate resources or access to healthcare facilities. The program emphasises preventive healthcare opportunities to help people maintain good health and prevent the onset of diseases. This approach is critical in addressing health disparities, particularly in underserved areas with limited access to healthcare services.

FOCUS: The initiative recognises the importance of good health in promoting overall well-being and quality of life. It aims to ensure that everyone, regardless of socio-economic background or geographic location, has access to healthcare services to lead a happy, healthy and prosperous life.

PROGRAM FEATURES: Nirog includes several aspects, such as health check-up camps, vision screening and free distribution of spectacles. These components work together to provide comprehensive support to rural people, addressing their diverse health needs and challenges.

IMPLEMENTATION & IMPACT: By providing access to healthcare services and support, Nirog empowers individuals and communities to take charge of their health and well-being, leading to increased productivity and a better quality of life. Overall, the program represents a significant step towards achieving universal healthcare in India and creating a healthier future for future generations.

The program was implemented in 15 villages across four states in India. These were:

- Gujarat
- Rajasthan
- Madhya Pradesh
- Haryana

Gender Coverage

Aapka Bhagya, Aapke Haath

Financial independence for women in India is a cornerstone of progress. When women can earn and manage their own income, a ripple effect of positive change empowers them, their families and their communities. Recognizing this critical role, Light's Aapka Bhagya, Aapke Haath program champions women's empowerment by equipping them with the tools for self-sufficiency and financial independence.

The program operates under the belief that financially empowered women prioritize their families' well-being, investing in their children's education and healthcare. This breaks the cycle of poverty, paving the way for a brighter future for generations to come. Aapka Bhagya, Aapke Haath fosters women's financial autonomy in rural and urban areas, contributing to inclusive development and gender equality.

Aapka Bhagya, Aapke Haath celebrated its third successful year in 2023-24. Through its two key projects, Swavalamban and Smart Dhan, the program has empowered over 250 women. These initiatives offer comprehensive support, encompassing training sessions, resources to launch their entrepreneurial journeys and mentorship programs. This multifaceted approach equips women with the necessary skills and knowledge to launch and grow their businesses.

The program goes beyond skill development, recognizing the importance of financial resources. It empowers women by providing tools like sewing machines, handcarts and cloth cutters, enabling them to translate their skills into successful enterprises.

Project: Swavalamban

OBJECTIVE: The project focuses on women's empowerment. The primary objective is to assist and support women, helping them achieve financial independence and self-sufficiency.

FOCUS: The project provides inputs and resources to women to start their own small businesses to gain financial independence.

PROJECT DETAILS: The project identifies women from economically disadvantaged backgrounds who have the potential to become successful entrepreneurs. This includes women who may have faced challenges such as dowry, domestic violence, single motherhood or widowhood. The project assesses each woman's skills and interests to tailor support for their individual business ventures. This year, 33 women received sewing machines, handcarts and cutting machines to help them launch their businesses.

IMPLEMENTATION & IMPACT:

- Women are empowered to build their own self-sustaining business.
- Women will no longer have to work as labourers or fall into a trap of human exploitation. They will be able to gradually come out of debt trap and work towards a promising future.

- Women achieve their right to earn a living and break the stereotype that only men can be breadwinners.

Project: Smart Dhan

Finance serves as a potent tool for women's empowerment in rural villages. Access to microfinance and savings mechanisms enables women to start and expand small businesses, fostering economic independence.

With financial resources, women can invest in education and healthcare for themselves and their families. Moreover, financial literacy programs empower women with the knowledge and skills to manage their finances effectively, enhancing their decision-making autonomy.

Thus, women gain social recognition and influence by participating in income-generating activities and contributing to household incomes, transforming gender dynamics and fostering inclusive development in rural communities.

OBJECTIVE: Light's Smart Dhan project equips women in rural areas with the knowledge and skills to manage their finances confidently and pursue personal growth and entrepreneurial goals. Launched in 2023-24, the initiative empowers them through comprehensive digital financial literacy training.

FOCUS: The project imparts knowledge and skills for effective money management. Educating rural women about savings, investments and financial planning empowers them to make informed decisions, build assets and secure their financial futures, driving economic empowerment and independence.

IMPLEMENTATION & IMPACT:

- **Impactful Training:** As many as 223 women beneficiaries across 13 districts in four states received essential financial literacy and awareness training. Also, 186 village-level women trainers gained financial literacy skills, enabling them to cascade knowledge within their communities.
- **Participants learned digital transaction techniques** using the latest financial tools, promoting financial inclusion.
- **Reaching Underserved Communities:** Smart Dhan successfully reached rural women in marginalised areas of Rajasthan, Gujarat, Haryana and Madhya Pradesh, fostering financial independence and economic empowerment.

AAPKA BHAGYA, AAPKE HAATH

The program was implemented in 14 districts of 4 states in India:

- Dahod district, Gujarat
- Alwar district, Rajasthan
